SUMMARY

Full-stack developer and BTech IT student with a solid foundation in software development, data structures and algorithms with hands-on experience in real-world projects. Developed scalable applications using React, Node.js, Express.js, MongoDB, JavaScript and REST APIs, enhancing functionality and user experience.

EDUCATION

University School of Information, Communication and Technology **November 2022 – July 2026**
B.Tech in Information Technology (CGPA: 7.6) *New Delhi, India*

Doon Public School **April 2020 – May 2021**
Class 12th - CBSE (Percentage: 87.6) *New Delhi, India*

SKILLS

Languages: C, C++, JavaScript (ES6+), TypeScript, SQL

Frontend: HTML5, CSS3, React.js, Redux, TailwindCSS, MaterialUI, ShadCN, Framer Motion

Backend: Node.js, Express.js, REST APIs, JWT-based Authentication

Databases: MongoDB, MySQL, Firebase

Developer Tools: Visual Studio Code, Git, GitHub, Google Colab, Postman, Figma, Sentry

Soft Skills: Leadership, Public Speaking, Teamwork, Event Management, Problem Solving

EXPERIENCE

Training and Internship - IBM SkillsBuild (CSRBOX)  | **GitHub** **July 2024 – August 2024**
Front End Developer Intern *New Delhi, India*

- Achieved **certification in front-end development** by mastering responsive design and JavaScript frameworks resulting in a **30% reduction in project turnaround time** for website enhancements.
- Collaborated with a cross-functional **team of 5 developers** to design and deploy a responsive, **API-integrated** web application and resolve UI defects.

IBM SkillsBuild Summer Certification  **July 2025 – August 2025**
Agentic AI Intern *New Delhi, India*

- Mastered an intensive certification in **Agentic AI concepts** and successfully integrated AI agents into real-world applications, **achieving 7% improvement** in AI agent accuracy.
- Created structured **technical documentation and tutorials**, enhancing knowledge transfer and reducing onboarding time for new team members by **1 hour weekly**.
- Developed and deployed a **mini-capstone project** demonstrating **AI-assisted problem-solving**, using Python, LangChain and Google Gemini API.

PROJECTS

HireHub | *ReactJS, NodeJS, ExpressJS, MongoDB, Clerk, Sentry, JWT, TailwindCSS* | **GitHub**

- Engineered a **full-stack Job Portal** utilizing the **MERN stack**, to connect job seekers and recruiters; reducing the average **search query time by 60%** through optimized database indexing and queries.
- Revamped the job search UI using **ReactJS and TailwindCSS**, decreasing bounce rate on **search results pages by 25%** through improved cross-device compatibility.
- Spearheaded the integration of **AI-powered NLP algorithms** for automated resume analysis and intelligent job matching, saving recruiters 5 hours per week by **improving candidate sourcing efficiency by 40%**.

CERTIFICATIONS

- Lets Upgrade Bootcamp - DSA in C++
- Reliance Foundation - Machine Learning
- IBM - Python for Data Science
- Microsoft and LinkedIn - Career Essentials in Software Development

ACHIEVEMENTS

- Placed in the **top 10%** in competitive programming contests like **CodeClash** and **AlgoUtsav**.
- Solved 250+** DSA problems across LeetCode and GeeksforGeeks.
